### Financial Inclusion

To enable banks to conduct almost all banking transactions at the customer's doorstep in remote / non banking location.

### LPG Gas Order Billing Application

It provides easy to use and more accurate solutions from LPG gas booking to the delivery of gas cylinder at the consumer's door step. It also gives instant notification to main office that the delivery to the right customer has been made.

### In-flight Sales Automation

Transforms an outdated payment system into a wireless powerhouse for in-flight sales. It records orders, checks inventory, processes electronic payment and prints receipts at the customer's seat enhancing the flying experience.

### Manned ATM

To expand the operational banking network at low operational and maintenance costs in rural / remote areas covering :

- Savings Deposit
- Cash Withdrawal
- Funds Transfer
- Loan Repayment
- Loan Disbursement
- Balance Enquiry
- Account Statement

### Microfinance

To help enable the poor to raise their income levels and improve their living standards by offering a host of banking / financial services to them. Transactions can be made entirely off-line.

### Insurance

To provide insurance products as an integral part of financial services for the poor and low-income people including

- Life Insurance
- Health Insurance
- Agricultural Insurance
- Livestock Insurance

### Automation of Public Distribution System

Helps Fingerprint based authentication for reduced leakages and error free distribution of ration. Data is uploaded from handheld terminal to central server in ONLINE mode through GSM/GPRS, CDMA, PSTN mode of communication or in OFFLINE mode using USB drive. It improves:

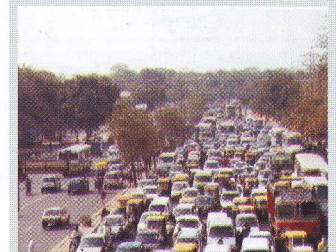

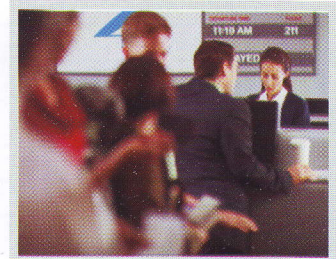

- End-to-End PDS System Performance
- Enhances Transparency and defines relationship between the activities
- Data Accuracy
- Enhances Productivity
- More Revenue Generation from Value Added Services

### Traffic Police e-challan System

To issue Challan on the spot for traffic violation. To keep track about previous offences committed by the driver.

### Utility Billing

To generate on the spot billing for all utilities such as electricity, water, gas, etc.
